Chances are that if someone asked you to draw a picture of yourself, what you would draw is the most obvious part of who you are, your face. But what about those parts that aren't immediately obvious? Like your car's make and model? Or the dates of your wedding and the names of your children? Before we get started, let's remind you to invite yourself to our Facebook group — Master Generators. A Master Generators group is the best way to get the most out of this website. Suppose, for example, that you are working at a company that is going through a tough time — like if your boss told you to "go to bed" on the last day of the year. You won't be able to do a great job of getting rid of your personal stress while you are at work. But if you take time to practice visualization during your commute, your workday performance can improve immensely. In a sense, you are "preparing" for the new year by visualizing the challenges ahead and putting yourself in a position to be able to handle them. It's a universally-appreciated truth that any actor who has played a role in a disaster film has the right to keep the home remedies that their character used during the big event. Generally, the home remedies are based off of Ayurvedic, Chinese and Western medicine (as well as any mixture of the 3) and contain simple ingredients that'll clean out your system, remove toxins, and heal your insides. They're also usually very cheap, and will keep you out of the emergency room. Plus, if you actually try them, there's a better chance that you'll be converted to holistic medicine as a whole. Below is an 11-lesson tutorial on how to make home remedies. Whether you're an actor, someone with health issues, or someone who just wants to live a healthier lifestyle, you'll be able to make some of your own remedies to keep those pesky coughing fits from returning. Likewise, if you've ever had problems with leg cramps, muscle pain, dehydration, or nausea and you're not sure if they're caused by a viral infection or something else, don't assume they're due to a viral infection. If you think you've contracted a virus, see a doctor. There are also some of the more "bitter" herbs in this series that contain certain elements that can cause health problems if ingested too much. We therefore encourage you to just make simple (and safe) herbal teas and use them as directed instead of medicating with them. Please also always keep in mind that drinking too much water is just as unhealthy as drinking too little. *NOT FOR FAMILY USE* Please do not attempt to make any of these remedies if you have an active
